Among other allegations in the complaint against Smith is the claim made by his wife that during the last six months she

"Why, some of those ignorant New Yorkers actually believe that Salt Lake is a little two-by-four pond that could dry up in a single season," said the returned traveler yesterday when trying to relieve his mint of its load of wee. "Many of the people theer imagine that the lake is a little two-by-four pond that could dry up in a single season," said the returned traveler yesterday when trying to relieve his mint of its load of wee. "Many of the people theer imagine that the lake is a the people theer imagine that the lake is a time. When I informed them that Great Salt Lake at the present time is about 126 miles long and from twenty to thirty miles wide, and is capable at times of volling up waves that would sink an ocean filmer, some of them began to open their eyes. Then when I told them further that even at the rate the lake has been falling during the last ten years of comparative drought—which is not likely to last always—it would take at least a hundred generations for the lake to dry up completely, there were a few who regarded me as just a common liar.

"I consider," continued Mr. Desky, "that too much fuss has been made even here at home over the falling of the lake. We who know the cause of it should know that there is nothing alarming in the situation. Farmers have been appropriating for irrigation the water that used to run into the lake, and of course the lake one; and it stand to reason that the lake can't fall much farther, for it is always sure of at least as great an inflow as it is now receiving. Then we know that we have had a cycle of about fifteen of the people don't like us."

When the Eastern people hear about Salt Lake drying up they don't understand that it is simply talk of something which might possibly happen a thousand years from now—they imagine it as already a vast expanse of sandy desert where the bring waters used to roll. The newspapers and citizens of Salt Lake ought to try to correct this mistaken idea which has gone abroad. It is vastly more to the interest of the city and State than to try to devise means of causing the lake to rise, for the lake, with the ald of nature, will take care of itself. It will be the greatest attraction of the West for the next dozen centuries, at least, and that is as long as many of us expect to have very much at stake around here."

IN THE SOCIAL WHIRL

Miss Ruby McCord of Chicago was guest of honor and Mrs. William A. Wetzell the hostess at a most delightful informal musicals yesterday afternoon at Mrs. Wetzell's apartments in the Templeton. The guests, about forty in number, included the well-known musicians of the city, who thoroughly enjoyed the musical numbers given. Red and white carnations, with greens, were used in the very pretty decorations, while green was carried out entirely in the punch, loss and refreshments. Mrs. Wetzell was assisted by Mrs. W. F. Loomis, Miss Turner and Miss Collier. It seemed that the musicians taking part in the programme never appeared to better advantage, and that is saying much, for they are among Salt Lake's best-known artists in their particular fields and have many timos charmed the music-lovers of the city. Miss Agatha Berkhoel sang "Ich Grolle Nicht," "Tod und das Madchen" and "Abstination", Mr. Wethe and Mr. Shepard gave Grieg's "Sonata in A minor, three movements, Miss Olive Gray played "Love's Dream" (Liszt) and the "Cradle Song" (Borfdi) and Mr. Nettleton gave two violin solos, "The Song of the Nightingale" and the "Serenade" by Gounod. Those who had the pleasure of meeting Miss McCord will be interested in her approaching marriage to William Arthur Thacher of Chicago. The wedding will take place at the home of the bride's parents in June, Miss McCord leaves for Chicago on Tuesday next. Mrs. Wetzell's apartments in the Templeday next.

One of the most enjoyable dancing parties ever given by the students of the west side high school was that of last evening, under the auspices of the cadets. The dance was given in the armory, which was attractive indeed with its beautiful desorations in the school colors, red and black, with American flags draped about the walls, and cosy corners of Oriental stuffs making inviting resting places for the young diancers. More than 200 guests were present and the affair was pronounced a complete success. Mrs. William A. Nelden, Mrs. Frank B. Stephens, Mrs. John J. Judson, Mrs. M. A. Peters and Mrs. W. C. BLACK RESOLUTION KILLED BY MAYOR

Reasons for His Action Set Forth by Mr. Morris in a Message to the Council.

providing that the heads of city departments be given authority to employ necessary subordinates, which was passed by the City Council Monday night, was vetoed by Mayor Morris yesterday. The Mayor's veto message

night, was vetoed by Mayor Morris yesterday. The Mayor's veto message to the Council reads as follows:

I herewith return to your honorable body, without my approval, the accompanying resolution, providing:

"That the following heads of departments be and are hereby authorized to employ the following employees, at the rate of compensation herein provided, during the pleasure of the City Council, "etc., etc., for the following reasons:

First—I am inclined to believe that the act of creating offices and positions and fixing compensation should be by ordinance and not by resolution. Section 207. Revides Statutes, entitled "Powers to be Enforced by Ordinance," enacts. "When by this title power is conferred upon the City Council to do and perform any act or thing, and the manner of exercising the same is not specifically pointed out, the City Council may provide by ordinances the manner and details necessary for the full exercise of such power." I am unable to find any provision by ordinances adopting or prescribing this manner of exercising such power.

Second—The duties of the several positions sought to be created are not defined. Looking into the past history in respect to the duties pertaining to such or similar places in the various departments. I find in many of thom the duties performed were in whole or in part pertaining to governmental or official functions. In respect to such positions the law of the State has prescribed that they be filled by appointment of the Mayor, by and with the advice and consent of the City Council and to permit this resolution to become effective would be to violate the plain statutory law of this State in that respect.

Third—I notice that at least one of the proving residence of the plain statutory and the services of the several positions are defined in the war-

plain statutory law of this State in that respect.
Third—I notice that at least one of the proposed positions scheduled in the water of the proposed positions scheduled in the water works department has heretofore been created by ordinance still in force, requiring the appointment to be "subject to confirmation by the Council."

Fourth—In the Health department, if any of the proposed employees are such as do not perform any governmental or official functions, it seems to me to be in accord with the law defining the duties of the Board of Health and good government, that the selection and employment of such help should rest with the Board of Health and not simply with one of its members. An ordinance creating the positions of

An ordinance creating the positions or necessary deputies, nasistants, etc. in the departments, fixing the compensation and defining the duties, I deem very urgent and important, but I consider it equally important that the piaces he created and filled in conformity to the governing law.

THE WRONG DIAGNOSIS.

Prompt the Use of Worthless Remedies.

Even an experienced physician will sometimes make a mistake in diagnosis, in which event his entire treatment is wasted and may even be injurious to the patient.

The advocates of all other hair restora-tives save Herpicide have wrongly diag-nosed the cause of Dandruff and Falling nosed the cause of Dandruff and Falling Hair.

They figure on a functional disease whereas it is now known and generally accepted that hair loss is due to a parasitic germ which Newbro's Herpicide destroys.

There is no substitute for Herpicide, accept none.
